

Vacancy: Assembler—Temp to Perm

DEPARTMENT: Operations

LOCATION: Shipley, West Yorkshire

Teledyne Defence & Space are seeking key individuals to join the existing assembly teams engaged in the production of advanced electronics systems and integrated end to end RF & microwave solutions for the defence, space and security markets.

The role will consist of the assembly of intricate products to a high standard and carrying out various essential processes within the production environment following procedures and specifications in accordance with the appropriate guidelines.

Main Responsibilities:

- Hand assembly of electronic devices using soldering, epoxy and bonding techniques.
- Working to process specifications, manufacturing instructions and required standards as determined by the product design.
- Meet requirements of line and audit inspection to IPC-A-610 and Mil standard 2000 and 883.
- Follow written, pictorial and verbal working instructions from Engineers and other team members.
- Highlight any re-work issues or problems to the Operations Support department and their Operations Management.
- Work with the Operations Test teams and ensure smooth flow of product is maintained.
- Work with the Engineering team and Operations Support team during redesign and new product introduction.
- Participate in Continuous Improvement activities and any new working initiatives.
- Assist in the generation of new manufacturing aids as required.
- Be responsible for continuous improvement activities both individually and as part of the team.
- Follow written, pictorial and verbal working instructions from Engineers and Team members.
- Contribute to and support all the lean manufacturing techniques adopted as part of the Teledyne Production System including 5S, Kaizen, KANBAN etc.

Key Attributes:

- Good hand to eye co-ordination.
- Ability to follow written, pictorial and verbal working instructions.
- Patience and an eye for detail.
- Ability to consistently produce high quality work.
- Must be adaptable and have the ability to multi-skill.

Desired skills:

- Experience of hand assembly of electronic devices.
- Experience in the use of various epoxies and solders.
- Experience of soldering/bonding.

How to apply:

To apply, please send your CV with a covering letter to: HR Department, Teledyne Defence & Space (a division of Teledyne Ltd), Airedale House, Acorn Park, Shipley, BD17 7SW - or via email: angela.stalker@Teledyne.com
