

Financial Controller

DEPARTMENT: Finance

REPORTING TO: UK Group Controller - Teledyne Microwave Solutions

Teledyne Defence & Space (TDS) are looking for a key individual to join their existing finance team as the Financial Controller. The successful candidate will be the lead finance person across the site.

In this role you will ensure accurate production of annual budgets, monthly reporting of actual results and forecasts. You will be responsible for all costing activity, with particular focus on Project Cost Accounting across the site. You will ensure a robust internal control environment is in place and you will have Management responsibility for the on-site Finance team.

Main responsibilities for this role are:

- To be the lead finance person for TDS in Shipley, by providing both financial and management accounting support to the business
- To be responsible for all Project Cost Accounting activity across the site
- Responsible for revenue reconciliation across all projects
- To manage all aspects of the Defence and Space financials and direct the financial strategy of the organisation
- To ensure accurate production of annual budgets and reports, and forecasts as well as identifying issues/problems for the forthcoming financial year
- Support the General Manager at TDS
- Contribute to the strategic direction of the organisation within the Senior Management teams
- Management responsibility for the on-site Finance team
- Meet with requirements of Internal and External audit examination

The successful candidate will be able to satisfy the following requirements:

- CIMA Qualified or equivalent experience
- Qualified / Part Qualified Accountant
- Knowledge and experience of ASC606 Revenue Recognition Standard
- Experience in working under pressure to tight deadlines with a meticulous eye for detail
- Good written and verbal communication skills with an organised approach to work
- Driven, exceeds goals, handles pressure, anticipates and removes barriers
- Effective communicator
- Experience working in a project cost environment
- Experience of working in an Engineering environment
- Ability to work to deadlines
- Excellent stakeholder Management
