

Production Manager

DEPARTMENT: Defence Operations
REPORTING TO: Product Line Manager

Teledyne Defence & Space are seeking a key individual to take on the role of Production Manager as part the Operations Manufacturing team to provide supervision, leadership and support to the Product Line Manager within the area of responsibility.

The successful candidate will be responsible for managing the production scheduling and operations within their specific operations group in order to achieve agreed operations targets. Communication between the groups and interface to all other areas of the business. The successful candidate would be expected and prepared to work alternating early & late shifts for the duration of the volume manufacturing or as required by the company.

Main responsibilities for this role are:

- To set and achieve quarterly production output targets agreed with the Product Line Manager to meet the forecast sales revenue and on time in full delivery
- Overall management and upkeep of the ERP system, Master Production Schedule, plans, forecasts and associated planning requirements for their department
- Planning, organising and prioritising production resource. Setting targets in conjunction with the Product Line Manager
- Ensuring manufacturing lead time, Takt time adherence throughout the production line
- Provide daily/weekly updates to the Product Line Manager. Communicating with operations management and other service or supply departments
- Instill and manage discipline with the team. Ensure adherence to all policies, manufacturing processes, specifications, EH&S controls and quality management systems and generation of NCRs where required
- To monitor, control and minimise WIP and stock levels where possible and to meet shipping targets
- To provide leadership and carry out annual performance appraisals
- To assist in the recruitment and induction of new employees. Training co-ordination, generation of development plans and mentoring new starters
- Maintenance of all Continuous Improvement aspects, 5S, Kaizen and KANBAN activities.
